# CAIRNS ACCOMODATION

Cairns is the capital city of Far North Queensland. The 16th largest city in Australia, with a population of over 120,000 people, Cairns is continuing to be a favoured destination - for its rare mixture of ecological environments and its cosmopolitan, colourful coastal character. Cairns location is absolutely magnificent. Located 400km from the northernmost part of the State of Queensland, it lies on the warm waters of Trinity Bay. No matter which direction is taken you will come across a World Heritage listed site The Great Barrier Reef or the Daintree Rainforest. Apart from its unique location and natural wonders, Cairns is set apart from its sister cities by a highly distinctive structural character. One most conspicuous feature is the distinct lack of high rises compared to the metropolitan cities of the south. Cairns is the gateway to most destinations within the Cairns region and like the early settlers acts as a base from which to explore.

Tropical North Queensland is as diverse in natural treasures as the cosmopolitan mix of cultures and peoples that call this region home. First to arrive were the Aborigines and Torres Strait Islanders... followed by the Dutch navigators and eventually Capt. James Cook, who claimed the coast for Britain and paved the way for European settlement to begin. Gold rushes and foreign wars brought immigrants from around the world to enrich the north with their skills, traditions and cultures. There are so many unique attractions and activities to see when you visit Cairns ...cruise to the reef or islands, take a 4WD safari to the outback, trek into the rainforest or see it from the rainforest cableway above its green canopy on your way to or from Kuranda. Day touring in this region is so easy - there are over 600 trips to choose from.
