## **WILDLIFE PACKAGE AT KANHA AND BANDHAVGARH MADHYA PRADESH 06NIGHTS/07DAYS CALL OF THE WILD**

This is a small National Park; compact, yet full of game. The density of the Tiger population at **Bandhavgarh** is the highest known in India.

This is also White Tiger country. These have been found in the old state of Rewa for many years. The last known was captured by Maharajah Martand Singh in 1951. This White Tiger, Mohan, is now stuffed and on display in the palace of the Maharajahs of Rewa.

**Kanha's** sal and bamboo forests, rolling grasslands and meandering streams stretch over 940 sq km in dramatic natural splendour which form the core of the Kanha Tiger Reserve created in 1974 under Project Tiger. The park is the only habitat of the rare hardground Barasingha (*Cervus Duvaceli Branderi*).

By a special statute in 1955, Kanha National Park came into being. Since then, a series of stringent conservation programmes for the protection of the park's flora and fauna has given Kanha its deserved reputation for being one of the finest and best administered National Parks in Asia, an irresistible attraction for all wildlife lovers and a true haven for its animal and avian population.

Soaring in glittering splendour, the **Marble Rocks** at Bhedaghat rise to a hundred feet on either side of the Narmada. The serene loveliness of the scene is one of cool quiet, the sunlight sparkling on the marble-white pinnacles and casting dappled shadows on the pellucid waters. These white rocks with views of black and dark green volcanic seams are truly majestic, and produce a magical effect on moonlit nights.

The holy river flows by tranquilly flanked by the towering cliffs which reflect in it like a mirror the changing moods of nature. A little distance away, it becomes turbulent as it plunges in a mighty water fall known as Dhuandhar.
